**Subject:** Renovations

Hi Julie,

Not super important but I just wanted to mention this to you. I am not sure what the plans for my area are and if there are ideas to phase out my area as a working lab or not. I know that my area is small and is the hallway as some put it. I am comfortable in my area and have a good working relationship with everyone in my area. However, I have had some eager invitations to join other labs and I am not sure if there are plans that haven't been made apparent yet otherwise I would rather just stay put. Just wanted to make sure that my aversion to move wasn't conflicting with any long term plans.
